Power	3200 W (1700 W on top 1520 W on bottom)
Voltage	230V / 50Hz / 1 Phase

Description

Ideal for breakfast buffet, this heavy duty versatile conveyor toaster toasts everything, waffles, bagels to muffins, hamburgers and even from bread to buns with an optimal output : 300 to 540 pieces/h according to the bread.

2 independent regulations according to the products to be toasted:

- both sets of 4 solid elements to adapt the toasting power (top, bottom or both sides)
- the speed of the conveyor belt

2 possible exits according to the products toasted:

- front operation to toast bread, brioche, bagels, hamburgers...
- pass through operation to toast baguettes, Ø 30 bread slices, waffles, garlic bread, buns, small pizzas, quiche...

Equipment : 8 solid heating elements (1700 W on top, 1520 W on bottom), elements selector (top, bottom or both), speed control, pilot lights, adjustable feet. Roof with reflectors and protection grid. Conveyor belt with stainless steel mesh, ventilated motors.

Easy cleaning: the top, the back closing system, the crumb tray and also the loading and reception plates are removable.

Made in France
